

Milton Keynes Schools Sport Partnership Affiliation

The Schools Sport Partnership (SSP) are a service to schools providing the infrastructure and support for a full range of services to meet the requirements and expectations of the Primary PE and Sport Premium. With funding now pledged to the end of 2020, there is the security to plan for sustainable improvements in the quality of PE teaching and a real opportunity to transform PE in primary schools and ensure **physical literacy** is embedded.

Although the structure has changed over time our objectives remain the same, to support schools in developing physical education and school sport. The SSP's networking capacity, reliability, integrity and attention to high quality enable children within Milton Keynes to have access to a resourceful infrastructure.

Our subscription offer represents an exciting mix of both new and proven opportunities, with prescribed and bespoke packages to meet the needs of individual school priorities, while still reflecting our Partnership vision:

To support schools in educating all pupils to be physically literate and provide them with the knowledge, skills and motivation necessary for a lifelong healthy lifestyle and participation in physical activity and sport.

School Name:	Date:
---------------------	--------------
